

Chapter 61

DUMPSTERS

[HISTORY: Adopted by the Board of Trustees of the Village of Saddle Rock 12-7-2011 by L.L. No. 1-2012. Amendments noted where applicable.]

GENERAL REFERENCES

Maintenance of property and buildings — See Ch. 93.

Solid waste — See Ch. 125A.

§ 61-1. Permits required.

- A. No container, dumpster, receptacle or other object for the collection of rubbish or debris (hereinafter referred to in this article as "container") having a capacity in excess of five cubic yards shall be located or maintained outdoors on any private property in the Village without a permit for the same first having been issued. Such permits shall be issued by the Building Official upon written application.
- B. When issued for collection and storage of materials in connection with construction work being performed pursuant to a permit, such permit shall be valid for the same period of time as the said permit. Where the underlying construction permit is renewed, the permit for debris collection may be renewed for the same period of time.
- C. Where such collection of materials is not being done in connection with construction work being performed pursuant to a permit, such permit shall be valid for a period of 30 days. Such permits may be renewed by the Building Official for not more than two additional periods of 30 days each upon written application. Further renewals of such permits may be issued by the Board of Trustees upon written application, and subject to reasonable conditions.
- D. All such permit applications or permit renewal applications shall be accompanied by payment of a fee in an amount determined by resolution of the Board of Trustees.
- E. No container shall be placed upon any public property in the Village, including any street or sidewalk, without a permit for the same first having been issued by the Board of Trustees, except that containers placed in such locations by the Village shall not require a permit. All applications for such permits shall include payment of a fee in an amount determined by resolution of the Board of Trustees.

§ 61-2. Permit application; validity of permit; identification numbers; warning devices.

- A. Any person desiring a permit under this chapter shall make written application therefor, specifying the exact proposed location of such dumpster, container or other receptacle, the size and capacity thereof, the name of the owner of the abutting property, the length of time that said use is required and any other information as may be required by the Building Official.

- B. Any permit issued pursuant to this chapter for location of a container on public property shall be valid only for 48 hours, unless the duration of the permit is otherwise specified in writing on the permit by the Code Official. In no event shall any such permit be valid for more than 30 days.
- C. All such dumpsters, containers or receptacles permitted pursuant to this chapter shall bear an identification number assigned by the Village and the name, address and telephone number of the person responsible therefor shall be prominently displayed thereon.
- D. All such dumpsters, containers or receptacles which remain in place during any of the hours between sunset of one day and sunrise of the next day shall be equipped with suitable reflectors and barricaded with flashing lights or other warning or protective devices as may be required by the Building Official in order to avoid a hazard to vehicular or pedestrian traffic. Any such reflectors shall be capable of reflecting motor vehicle headlights at a distance of at least 500 feet.

§ 61-3. Standards for permit issuance.

Prior to and during the location or installation of any dumpster, receptacle or container hereunder, the applicant must demonstrate compliance with the applicable provisions of the Village Code and must comply with the following standards:

- A. The applicant must produce a certificate of liability insurance, naming the Village as an additional insured, in an amount to be determined by the Code official, but not less than single limits of \$500,000.
- B. A separate permit must be requested and obtained for each dumpster, receptacle or container proposed to be located on a street, sidewalk or public property.
- C. No dumpster, receptacle or container may exceed 30 cubic yards of capacity.
- D. Any dumpster, receptacle or container which contains animal or vegetable refuse shall be kept covered at all times with a metal cover or other suitable covering approved by the Building Official.
- E. No dumpster, receptacle or container may be placed within 25 feet of any intersection or in any location not approved by the Building Official.

§ 61-4. Refusal or revocation of permit; emergency removal.

- A. In the discretion of the Building Official, a permit may be denied if the Building Official deems the same to constitute a danger to public safety or an unwarranted interference with the efficient movement of vehicular or pedestrian traffic.
- B. The Building Official may revoke a permit for the same reasons as the Building Official may refuse issuance of a permit or for violation of the provisions of this chapter, and if the dumpster, receptacle or other container is not removed within 24 hours after notification of such revocation, the same may be revoked by the Village and stored at the owner's expense.
- C. If the Building Official shall determine at any time that an emergency situation exists with

respect to a dumpster, receptacle or other container, the Building Official may cause the same to be removed and stored at the expense of the owner.

§ 61-5. Appeals.

Any appeal from the refusal of the Building Official to issue or renew a permit hereunder or to revoke a permit hereunder or to impose any condition hereunder shall be made in writing to the Board of Trustees within 30 days of the determination by the Building Official. The pendency of any such appeal shall not affect the efficacy of the determination appealed from.

§ 61-6. Applicability.

The provisions of this chapter shall not apply to containers or receptacles used for normal residential garbage collections nor to bundled newspapers which have been placed by the curb for pickup.
